

Legacy GameScore – INSTALL / DOWNLOAD PROCEDURE

November 11, 2025

Here are download and install instructions for the FreeTrial version of Legacy GameScore. Note that the procedure for downloading and installing the LegacyScore Update is very near identical to this procedure.

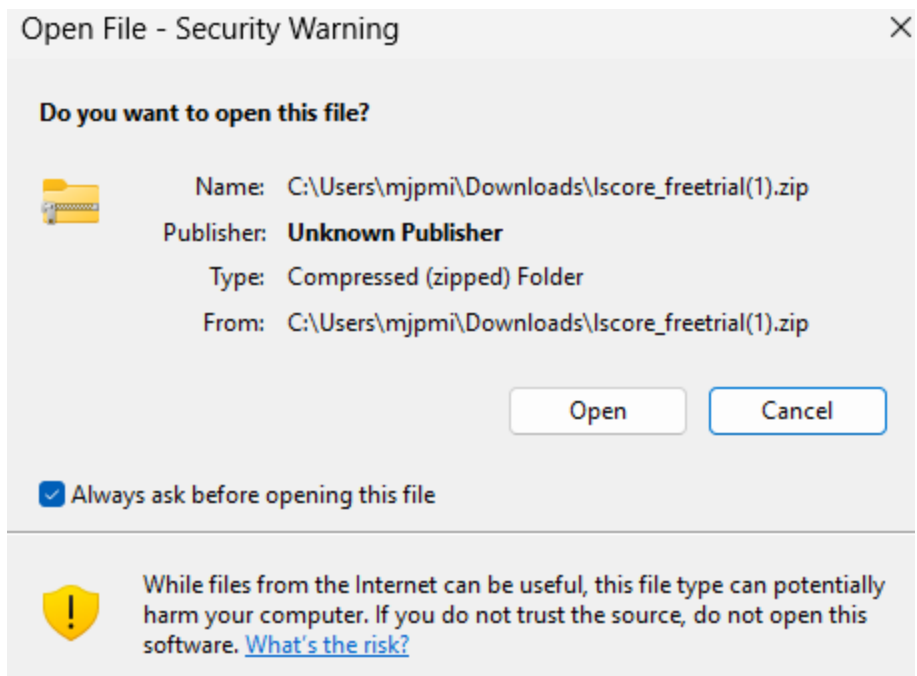

Step 1: Select DOWNLOAD

Step 2: Click the Down Arrow and then Click on the Yellow folder button for the lscore_freetrial.zip file to begin download process. This sometimes takes a minute to load....

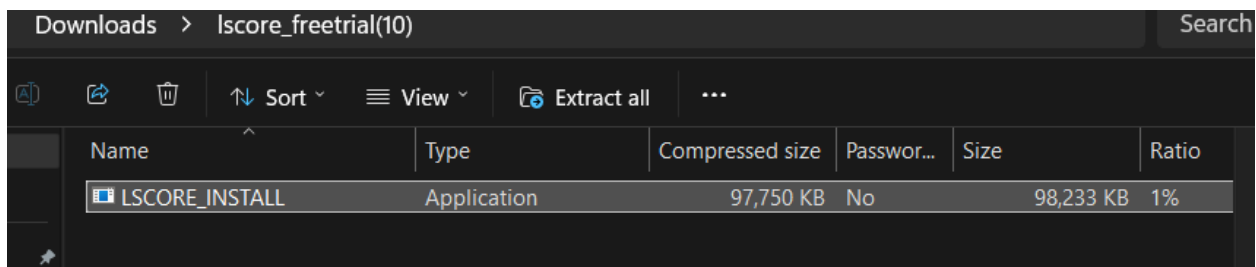

Then you will see the Open File form as follows:

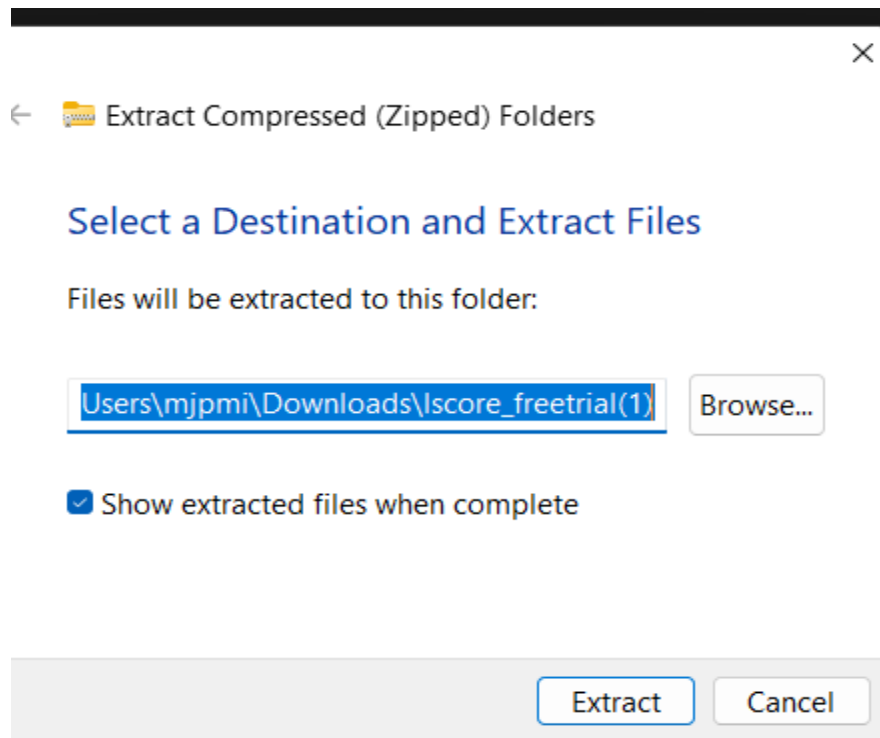

This is the standard security warning for opening a download file from an unknown publisher. Ignore this warning (THIS FILE IS VIRUS FREE) and proceed by selecting the OPEN button. Note that Microsoft will only skip this warning message once software vendors like LegacyGameScore pay the fees they charge for their software registration procedures.

So we urge you to proceed and SELECT OPEN

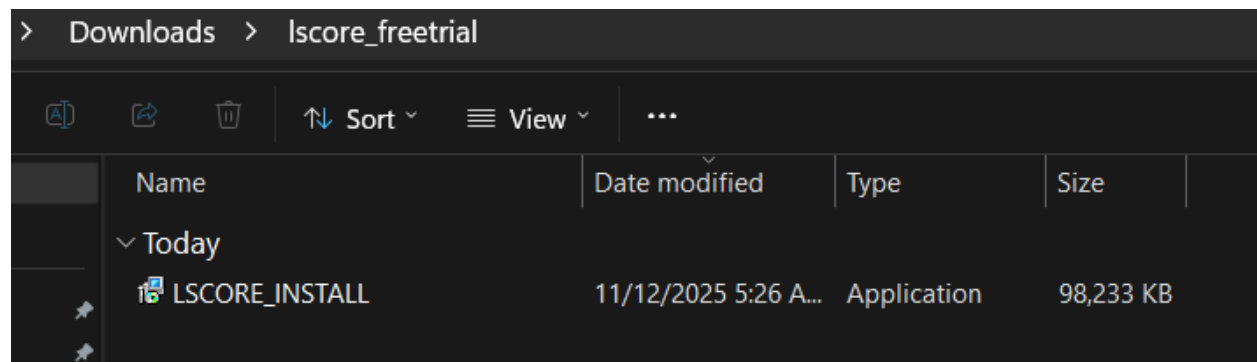

Now you need to select the Downloaded File (LSCORE_INSTALL) and Extract the contents of this downloaded zip file by highlighting the LSCORE_INSTALL file and Selecting the EXTRACT ALL button as follows:

THEN SELECT THE EXTRAT BUTTON....

AND THIS FORM APPEARS:

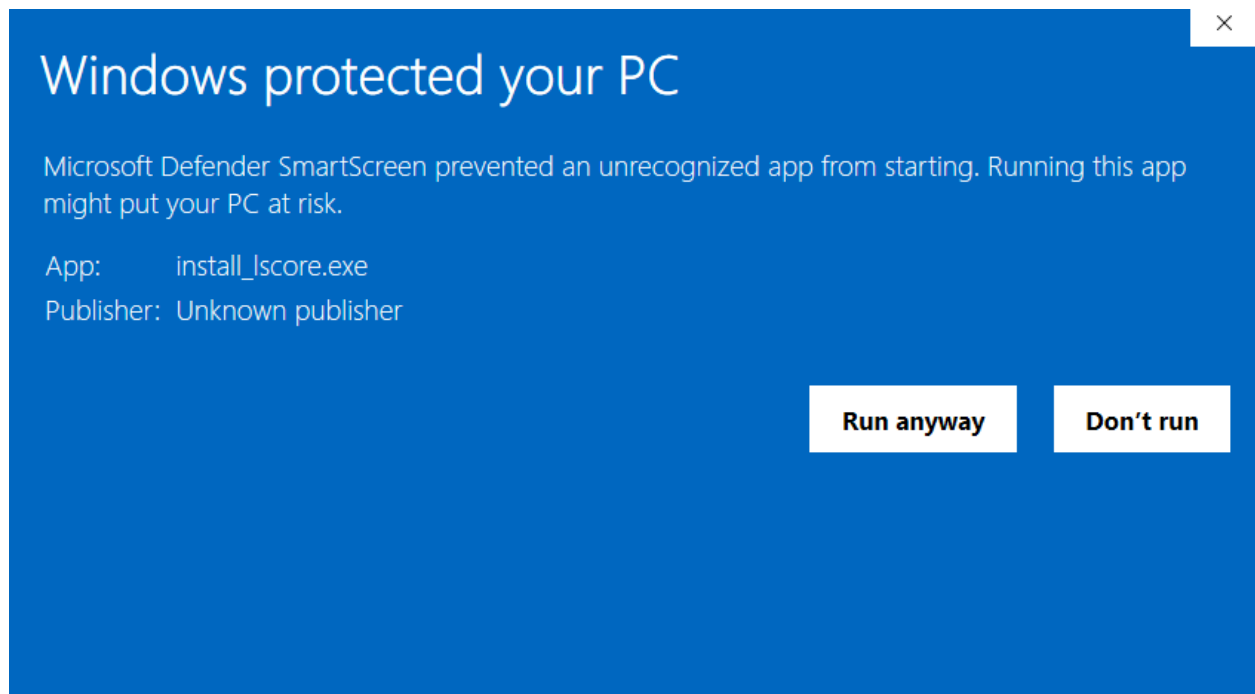

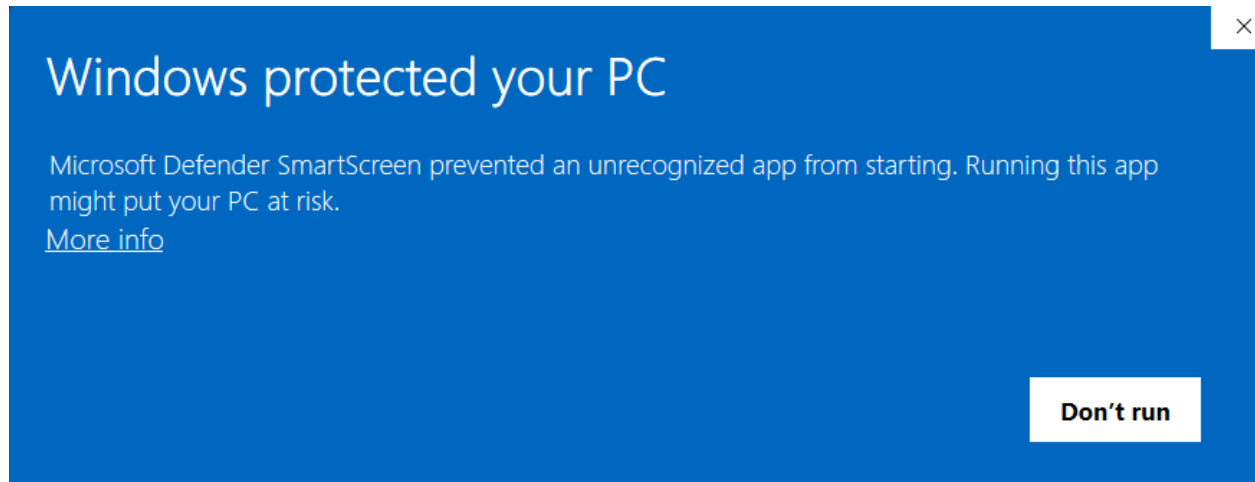

Now you are ready to actually load and install the Legacy GameScore to your machine!

Simply highlight (again) the LSCORE_INSTALL application file and Select OPEN (of dbl click on the file).

Now you will likely get a warning message from the MicroSoft Defender system. This is a standard warning message whenever you download and execute an unknown program that you download from any Internet browser

This warning message can be avoided if you disable the Microsoft Defender on your machine, but that is not recommended as there definitely are scammers and bad viruses out there.

Next: Bypass this warning and proceed with the install of **this safe and virus free program...** simply select “MORE INFO” and then select “RUN ANYWAY”

By Selecting “RUN ANYWAY” you will now get to the actual business of installing the freetrial version of our program.

But first you will be presented with the USER ACCOUNT CONTROL FORM and you will be asked the question:

“Do you want to allow this app from an unknown publisher to make changes to your device?”

SELECT YES!

NOW!

The install and setup of Legacy GameScore will proceed...

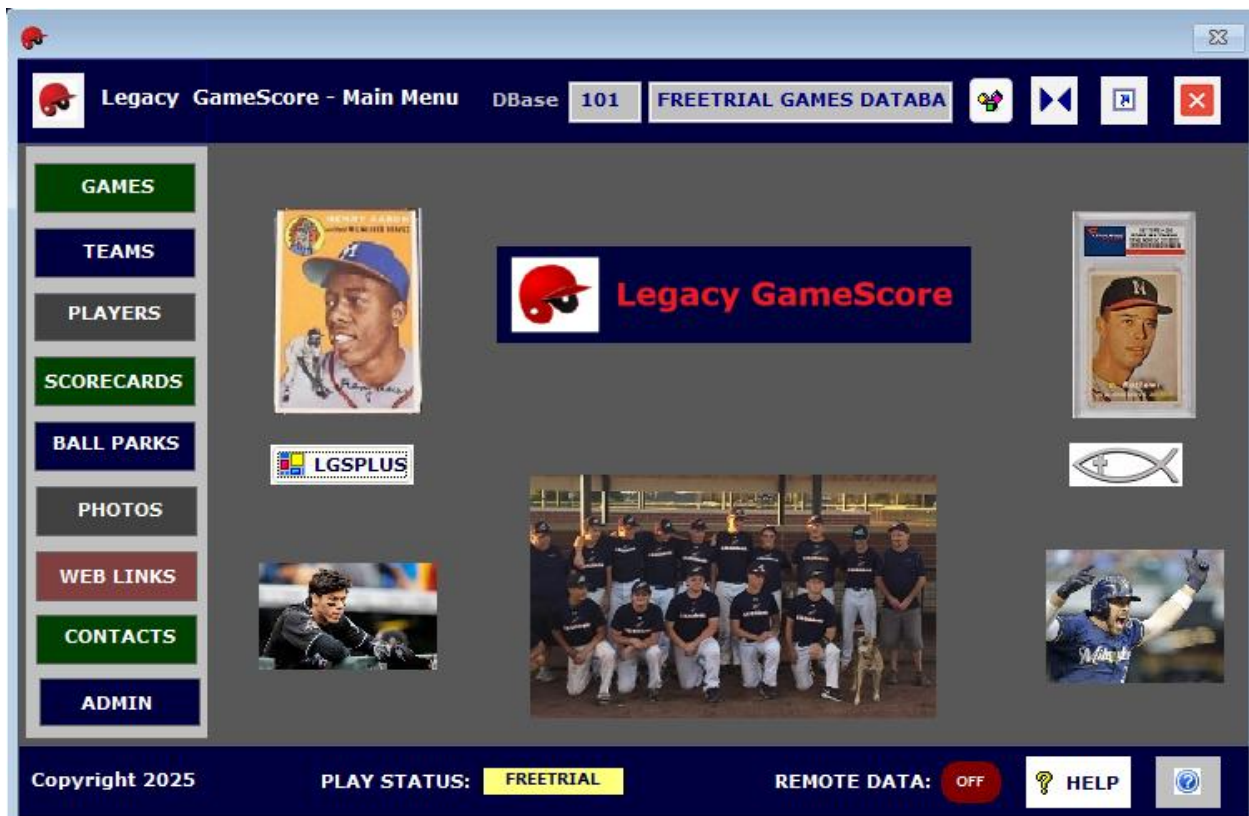

Select

NEXT

INSTALL

And finally FINISH

And if all goes well ... you will see:

Happy Scoring!!!

One more note: The first time you run LEGACY GAMESCORE... you may need to bypass the Microsoft Defender warning message one more time.... By Selecting “More Info” and “Run Anyway”
